

Attaching the Strap

• We recommend attaching the strap when using the camera to prevent it from dropping.

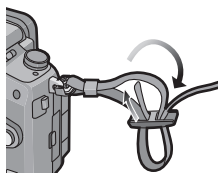

- 1** Pass the strap through the strap eyelet on the camera body.

- 2** Pass the end of the strap through the ring in the direction of the arrow and then pass it through the stopper.

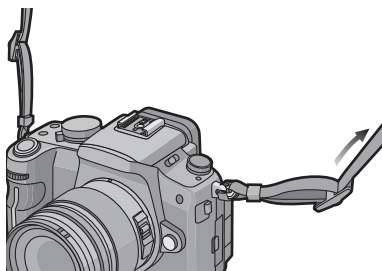

- 3** Pass the end of the strap through the hole on the other side of the stopper.

- 4** Pull the other side of the strap and then check that it will not come out.

- Perform steps 1 to 4 and then attach the other side of the strap.

Note

- Be sure to follow the steps and attach the strap correctly.
- Check that the strap is firmly attached to the camera.
- Attach the strap so that the "LUMIX" LOGO is on the outside.
- Use the strap around your shoulder.
 - Do not wrap around your neck.
 - It may result in injury or accident.
- Do not leave the strap where an infant can reach it.
 - It may result in accident by mistakenly wrapping around the neck.
